BUEHLER

PHYSICAL THERAPY

You are Safe with Us

OUR GOAL:

To honor the trust that you place in us to provide the best physical therapy care in the safest manner

Your **safety** & **comfort** are our main areas of focus at this time.

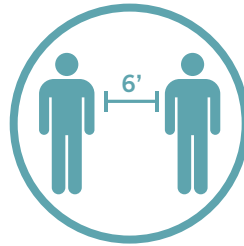

We have made significant changes to provide the **cleanest** & **safest** environment possible.

CBPT CORONAVIRUS PROTECTION PLAN

Screening

We will be thoroughly screening patients to prevent those who are sick from entering our office. In addition, we will take the temperature of every patient on each visit.

Social Distancing

We have adjusted our treatment model and rearranged our office so there will be less patients in our office at a time and there will be plenty of space in between patients.

Protecting (PPE)

We require all patients to wear a mask and will provide one if needed. Our staff will also be wearing a face mask and will have other PPE (personal protective equipment) available as needed (face shields, gloves)

Treating

Each patient's treatment session will be one on one with their Physical Therapist the entire visit.

Hand Washing

Every patient entering our office will be asked to use hand sanitizer or wash their hands upon entry. Our clinical staff are diligent about hand washing and hand sanitizing.

Sanitizing

We are diligent about sanitizing every surface or item after each use. We have also installed Air Purification Units in each office.

NOW OFFERING TELEHEALTH!

We are now offering 'Telehealth' physical therapy visits for patients who are not comfortable coming to our office at this time and for those who are over 65 years of age or immunocompromised.
